Professional Summary

I am an Aspiring Data Scientist & AI Engineer with Expertise in Machine Learning, NLP, Generative AI, and Data Analytics. Proficient in Python, SQL, Power BI, Tableau, and Cloud APIs, with hands-on experience in AI-driven applications, Automation and Passionate about uncovering insights from complex datasets, solving intricate problems, and driving impactful decisions through data-driven analysis & AI solutions. My expertise spans machine learning, deep learning, and generative AI, enabling businesses to leverage data for growth and innovation.
Founder of TechSeva IT Solutions and core team member of Building Bihar NGO, blending tech innovation with real-world impact. Skilled in building AI-driven apps, solving complex problems, and turning data into actionable insights.

Core Skills

Python, SQL, Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI, Data Analytics, Power BI, Tableau, Streamlit, LangChain, OpenAI API, Hugging Face API, Cloud-Based AI APIs, Data Visualization, Process Automation, Problem Solving, Critical Thinking, Project Management, Team Collaboration, Startup Leadership, Tech Consulting, Pandas, NumPy, SciPy, Statsmodels, Matplotlib, Seaborn, Scikit-learn, Linear Regression, Logistic Regression, Decision Trees, Random Forest, Naive Bayes, AdaBoost, XGBoost, TensorFlow, Keras, GPT, BERT, T5, Hugging Face Transformers, Recommender Systems, RAG, YOLO, Flask, FastAPI, Prompt Engineering, GenAI Workflows

Soft Skills

Teamwork, Time Management, Effective Communication, Leadership, Critical Thinking, Business Development, Project Management, Team Collaboration

Work Experience

- **Freelancer & ML Web APP, Dashboard Design**
- **ML Intern– iNeuron Intelligence (Remote)**
- **Data Science Intern– Prodigy InfoTech (1Months) (Remote)**
- **Python Developer Intern - TechnoHacks 1 Months)**

- **AI/ML Engineer - DevDisplay 2024-Current (Full Time)**
- **Founder- TechSeva IT Solution Agency (Full Time)**
- **Campus Ambassador - MyGov India (Part Time)**
- **Data Sciene Intern - Cognifyz Technology**

Projects

SehaatSaathi- AI Virtual Health Assistant www.SehatSathi.com

- Welcome To, SehaatSaathi is an Open-Source Smart Health Assistant that provides AI-powered remote medical consultation, diagnosis, treatment suggestions, and much more. Our goal is to make healthcare accessible, affordable, and AI-driven for everyone, including those in rural and underprivileged areas.

AI ResumeXpert Analyst Agent www.resumexper.app

- AI ResumeXpert Analyst is a cutting-edge AI-powered platform that helps job seekers optimize their resumes, improve ATS compatibility, and get career insights. Whether you're a job seeker, recruiter, or developer, this tool analyzes resumes, ranks them, and offers AI-generated improvements!

Abhi Medical+ Shop Billing System & Medicine Recommendation System www.abhimedical.com

- Developed an intelligent desktop-based billing system tailored for medical shops, integrating inventory management, GST billing, and customer data handling. Enhanced with a Medicine Recommendation Engine using patient symptoms and purchase history to suggest appropriate OTC medicines. The system streamlines shop operations while adding AI-driven decision support for pharmacists.

AI Personal Finance Agent App www.aifinance.ai

- AI Personal Finance Agent is an AI-powered financial planner built with Google Gemini AI & Streamlit to help users track expenses, plan budgets, optimize savings, and get AI-driven investment insights. It includes bill reminders, credit score analysis, tax calculations, and portfolio tracking—empowering users with smart financial management & growth

TechSeva Calling AI Agents www.techsevacalling-ai.app

- Built an AI-powered voice assistant system using Vapi API and Twilio, enabling real-time, two-way phone call interactions with users. The system integrates LLM agents to understand user queries, respond intelligently, and perform task-based actions via voice calls. Designed to automate customer support, appointment scheduling, and information retrieval with a human-like conversational experience

AI-Powered PDF Insights Analyst AI Agent www.pdfanalyst.app

- Designed an AI agent capable of analyzing complex PDF documents to extract structured insights, summaries, and answers to user queries. Integrated with LangChain, OpenAI API, and OCR tools to enable semantic search, question answering, and context-aware summarization from unstructured PDF data. Ideal for automating document review,

Education

Full Stack Data Science With Gen AI (Bengaluru) Remote	>	**Jan 2024 – Mar 2025**		
Pursuing BCA at CIMAGE Professional College, (AKU), PATNA	>	**July 2023 – June 2026**	>	**CGPA : 8.57**
JN College Madhubani) - Intermediate (Science)	>	**June 2020 - April 2022**	>	**Percentage : 68.60%**
Shishupal High School (Bhagwanpur) - Secondary School	>	**April 2020**	>	**Percentage : 64.80%**

Certifications

Complete Generative AI Course with Langchain, Hugging Face - Krish Naik
Full Stack Data Science With Generative AI - iNeuron.ai
Data Science, Artificial Intelligence Fundamental – Infosys
Fundamentals of Generative AI– Microsoft
Data Analytics & Visualization– Accenture
LLM Engineering Master AI Agents – Udemy
Complete Agentic AI BootCAmp WIth LangGraph & Langchain – Krish Naik
Deep Learning & NLP– Infosys

Achievements & Initiatives

Founder of TechSeva IT Solutions Agency Pvt Ltd – Project Outsourcing & AI-driven automation services
Founder of 'SehaatSaathi'– AI-based Virtual Health Assistant Startup Project
Team 'Building Bihar Foundation' NGO– Focused on social impact through technology
Active Contributor in Data Science Community– GitHub & LinkedIn

Language - English, Hindi, Maithili
